

R 11-12-20 Appeals Process for Absences

Students who believe the attendance policy has been misapplied regarding their absences are entitled to appeal the decision of the local school officials. The student or the custodial parent/guardian may make a written appeal to the school principal/designee to have his/her case reviewed. The review shall include the presentation of documents and evidence from both the school and the student. Students whose custodial parents/guardians are unsuccessful in their appeal at the school level may make a written appeal to the Superintendent and the Board in that order.
